ELSEVIER

Journal of Ethnopharmacology 50 (1996) 177–179

Journal of ETHNO-PHARMACOLOGY

Subject index

Volume 50 (1996)

Acetylcholine; Hachimi-jio-gan; Scopolamine; Radial maze; Choline acetyltransferase; Acetylcholinesterase **50**, 77

Acetylcholinesterase; Hachimi-jio-gan; Scopolamine; Radial maze; Acetylcholine; Choline acetyltransferase **50**, 77

Acute toxicity; Ese'ejas; Brine shrimp; Cytotoxicity; DNA-binding activity; Antimicrobial activity **50**, 91

Africa; Botanicals; Hallucinogens **50**, 141

Alkaloids; *Sceletium*; Mesembryanthemaceae; Oxalates; Hallucinogens; Anxiolytic agent **50**, 119

Alloxan; *Artemisia pallens*; Diabetes; Glucose; Anti-hyperglycaemic **50**, 13

Ambroxol; Benzylamine; Bromhexine; *Mycobacterium tuberculosis* **50**, 49

Analgesic effect; *Ervatamia coronaria*; Apocynaceae; Indole alkaloids; Anti-inflammatory; Sleeping time **50**, 19

Anti-hyperglycaemic; *Artemisia pallens*; Diabetes; Glucose; Alloxan **50**, 13

Anti-inflammatory; *Ervatamia coronaria*; Apocynaceae; Indole alkaloids; Analgesic effect; Sleeping time **50**, 19

Antiamoebic; *Entamoeba histolytica*; *Piper longum*; Piperine **50**, 167

Antibacterial; Ethnobotany; Nepal; Terai; Tharu; Antifungal **50**, 97

Antibacterial activity; Flavanones; Phytochemical isolates; Methicillin-resistant *Staphylococcus aureus* (MRSA); Structure-activity relationship **50**, 27

Antifungal; Ethnobotany; Nepal; Terai; Tharu; Antibacterial **50**, 97

Antimicrobial activity; Ese'ejas; Brine shrimp; Acute toxicity; Cytotoxicity; DNA-binding activity **50**, 91

Antimicrobial activity; Guinea-Bissau; Medicinal plants; Screening **50**, 55

Anxiolytic agent; *Sceletium*; Mesembryanthemaceae; Alkaloids; Oxalates; Hallucinogens **50**, 119

Aortic plaques; *Emblica* fruit juice feeding; LDL-cholesterol; Fecal cholesterol; Tissue lipids **50**, 61

Apocynaceae; *Ervatamia coronaria*; Indole alkaloids; Anti-inflammatory; Analgesic effect; Sleeping time **50**, 19

Aridanin; Saponins; *Tetrapleura tetraptera*; Bayluscide®; Light and electron microscopy; Detoxification functions; Molluscicides **50**, 103

Artemisia pallens; Diabetes; Glucose; Anti-hyperglycaemic; Alloxan **50**, 13

Ashwagandha; Immunomodulation; Immunostimulation; Myelosuppression; *Withania somnifera* **50**, 69

Bayluscide®; Aridanin; Saponins; *Tetrapleura tetraptera*; Light and electron microscopy; Detoxification functions; Molluscicides **50**, 103

Benzylamine; Bromhexine; Ambroxol; *Mycobacterium tuberculosis* **50**, 49

Bolivia; HIV; Kallawaya; Medicinal plants **50**, 157

Botanicals; Hallucinogens; Africa **50**, 141

Brine shrimp; Ese'ejas; Acute toxicity; Cytotoxicity; DNA-binding activity; Antimicrobial activity **50**, 91

Bromhexine; Benzylamine; Ambroxol; *Mycobacterium tuberculosis* **50**, 49

Carissa edulis; *Luffa aegyptiaca*; Normal rats; Streptozotocin diabetic rats **50**, 43

Choline acetyltransferase; Hachimi-jio-gan; Scopolamine; Radial maze; Acetylcholine; Acetylcholinesterase **50**, 77

Cytotoxicity; Ese'ejas; Brine shrimp; Acute toxicity; DNA-binding activity; Antimicrobial activity **50**, 91

Detoxification functions; Aridanin; Saponins; *Tetrapleura tetraptera*; Bayluscide®; Light and electron microscopy; Molluscicides **50**, 103

Diabetes; *Artemisia pallens*; Glucose; Anti-hyperglycaemic; Alloxan **50**, 13

DNA-binding activity; Ese'ejas; Brine shrimp; Acute toxicity; Cytotoxicity; Antimicrobial activity **50**, 91

Embelia schimperi; *Taenia saginata*; *Hymenolepis diminuta*; Rat; Traditional medicine; Embelin **50**, 35

Embelin; *Embelia schimperi*; *Taenia saginata*; *Hymenolepis diminuta*; Rat; Traditional medicine **50**, 35

***Emblica* fruit juice feeding**; LDL-cholesterol; Fecal cholesterol; Tissue lipids; Aortic plaques **50**, 61

Entamoeba histolytica; Antiamoebic; *Piper longum*; Piperine **50**, 167

Epicoprostanol; Hypoglycemia; Insulitis; Insulin **50**, 85

Ervatamia coronaria; Apocynaceae; Indole alkaloids; Anti-inflammatory; Analgesic effect; Sleeping time **50**, 19

Ese'ejas; Brine shrimp; Acute toxicity; Cytotoxicity; DNA-binding activity; Antimicrobial activity **50**, 91

Ethnobotany; Nepal; Terai; Tharu; Antifungal; Antibacterial **50**, 97

Ethnopharmacopoeia; Rotuma; Polynesia; Traditional medicine **50**, 147

Fecal cholesterol; *Emblica* fruit juice feeding; LDL-cholesterol; Tissue lipids; Aortic plaques **50**, 61

Flavanones; Phytochemical isolates; Methicillin-resistant *Staphylococcus aureus* (MRSA); Antibacterial activity; Structure-activity relationship **50**, 27

Ginkgo biloba; Ginkgolides; Neuroprotection; Neural damage **50**, 131

Ginkgolides; *Ginkgo biloba*; Neuroprotection; Neural damage **50**, 131

Glucose; *Artemisia pallens*; Diabetes; Anti-hyperglycaemic; Alloxan **50**, 13

Guinea-Bissau; Antimicrobial activity; Medicinal plants; Screening **50**, 55

Hachimi-jio-gan; Scopolamine; Radial maze; Acetylcholine; Choline acetyltransferase; Acetylcholinesterase **50**, 77

Hallucinogens; *Sceletium*; Mesembryanthemaceae; Alkaloids; Oxalates; Anxiolytic agent **50**, 119

Hallucinogens; Botanicals; Africa **50**, 141

HIV; Bolivia; Kallawaya; Medicinal plants **50**, 157

Hymenolepis diminuta; *Embelia schimperi*; *Taenia saginata*; Rat; Traditional medicine; Embelin **50**, 35

Hypoglycemia; Epicoprostanol; Insulitis; Insulin **50**, 85

Immunomodulation; Ashwagandha; Immunostimulation; Myelosuppression; *Withania somnifera* **50**, 69

Immunostimulation; Ashwagandha; Immunomodulation; Myelosuppression; *Withania somnifera* **50**, 69

Indole alkaloids; *Ervatamia coronaria*; Apocynaceae; Anti-inflammatory; Analgesic effect; Sleeping time **50**, 19

Insulin; Epicoprostanol; Hypoglycemia; Insulitis **50**, 85

Insulitis; Epicoprostanol; Hypoglycemia; Insulin **50**, 85

Kallawaya; Bolivia; HIV; Medicinal plants **50**, 157

LDL-cholesterol; *Emblica* fruit juice feeding; Fecal cholesterol; Tissue lipids; Aortic plaques **50**, 61

Light and electron microscopy; Aridanin; Saponins; *Tetrapleura tetraptera*; Bayluscide®; Detoxification functions; Molluscicides **50**, 103

Luffa aegyptiaca; *Carissa edulis*; Normal rats; Streptozotocin diabetic rats **50**, 43

Medicinal plants; Antimicrobial activity; Guinea-Bissau; Screening **50**, 55

Medicinal plants; Bolivia; HIV; Kallawaya **50**, 157

Mesembryanthemaceae; *Sceletium*; Alkaloids; Oxalates; Hallucinogens; Anxiolytic agent **50**, 119

Methicillin-resistant *Staphylococcus aureus* (MRSA); Flavanones; Phytochemical isolates; Antibacterial activity; Structure-activity relationship **50**, 27

Molluscicides; Aridanin; Saponins; *Tetrapleura tetraptera*; Bayluscide®; Light and electron microscopy; Detoxification functions **50**, 103

Mycobacterium tuberculosis; Benzylamine; Bromhexine; Ambroxol **50**, 49

Myelosuppression; Ashwagandha; Immunomodulation; Immunostimulation; *Withania somnifera* **50**, 69

Nepal; Ethnobotany; Terai; Tharu; Antifungal; Antibacterial **50**, 97

Neural damage; *Ginkgo biloba*; Ginkgolides; Neuroprotection **50**, 131

Neuroprotection; *Ginkgo biloba*; Ginkgolides; Neural damage **50**, 131

Normal rats; *Luffa aegyptiaca*; *Carissa edulis*; Streptozotocin diabetic rats **50**, 43

Oxalates; *Sceletium*; Mesembryanthemaceae; Alkaloids; Hallucinogens; Anxiolytic agent **50**, 119

Parthenolide; *Tanacetum parthenium*; Sesquiterpene lactone; Rat fundus; Serotonin release **50**, 1

Phytochemical isolates; Flavanones; Methicillin-resistant *Staphylococcus aureus* (MRSA); Antibacterial activity; Structure-activity relationship **50**, 27

Piper longum; Antiamoebic; *Entamoeba histolytica*; Piperine **50**, 167

Piperine; Antiamoebic; *Entamoeba histolytica*; *Piper longum* **50**, 167

Polynesia; Rotuma; Ethnopharmacopoeia; Traditional medicine **50**, 147

Radial maze; Hachimi-jio-gan; Scopolamine; Acetylcholine; Choline acetyltransferase; Acetylcholinesterase **50**, 77

Rat; *Embelia schimperi*; *Taenia saginata*; *Hymenolepis diminuta*; Traditional medicine; Embelin **50**, 35

Rat fundus; Parthenolide; *Tanacetum parthenium*; Sesquiterpene lactone; Serotonin release **50**, 1

Rotuma; Ethnopharmacopoeia; Polynesia; Traditional medicine **50**, 147

Saponins; Aridanin; *Tetrapleura tetraptera*; Bayluscide®; Light and electron microscopy; Detoxification functions; Molluscicides **50**, 103

Sceletium; Mesembryanthemaceae; Alkaloids; Oxalates; Hallucinogens; Anxiolytic agent **50**, 119

Scopolamine; Hachimi-jio-gan; Radial maze; Acetylcholine; Choline acetyltransferase; Acetylcholinesterase **50**, 77

Screening; Antimicrobial activity; Guinea-Bissau; Medicinal plants **50**, 55

Serotonin release; Parthenolide; *Tanacetum parthenium*; Sesquiterpene lactone; Rat fundus **50**, 1

Sesquiterpene lactone; Parthenolide; *Tanacetum parthenium*; Rat fundus; Serotonin release **50**, 1

Sleeping time; *Ervatamia coronaria*; Apocynaceae; Indole alkaloids; Anti-inflammatory; Analgesic effect **50**, 19

Streptozotocin diabetic rats; *Luffa aegyptiaca*; *Carissa edulis*; Normal rats **50**, 43

Structure-activity relationship; Flavanones; Phytochemical isolates; Methicillin-resistant *Staphylococcus aureus* (MRSA); Antibacterial activity **50**, 27

Taenia saginata; *Embelia schimperi*; *Hymenolepis diminuta*; Rat; Traditional medicine; Embelin **50**, 35

Tanacetum parthenium; Parthenolide; Sesquiterpene lactone; Rat fundus; Serotonin release **50**, 1

Terai; Ethnobotany; Nepal; Tharu; Antifungal; Antibacterial **50**, 97

Tetrapleura tetraptera; Aridanin; Saponins; Bayluscide®; Light and electron microscopy; Detoxification functions; Molluscicides **50**, 103

Tharu; Ethnobotany; Nepal; Terai; Antifungal; Antibacterial **50**, 97

Tissue lipids; *Emblica* fruit juice feeding; LDL-cholesterol; Fecal cholesterol; Aortic plaques **50**, 61
